

# Test-drive a new CLAAS ARION...

## ...and win a REALLY long test drive.

If you test drive any of the new CLAAS ARION tractor range before the 30th November you could win the use of that tractor for the entire season. But be warned - we can't promise that you'll want to give it back.

These German tractors feature powerful multi valve engines, combined with highly efficient automatic transmissions designed to reduce running costs while providing market-leading performance. The four-corner cab suspension, CIS on-board computer, air conditioning and multi function armrest cater for the needs of the most demanding of drivers.

And the whole package is backed by our 24/7 parts and service support to keep you operating during the busiest and most productive time of the year.

Take one for a test drive, and see if you're comfortable with it.

**CLAAS leading technology since 1912**

\*Offer valid until 30 November 2009. Winner drawn 4 December. Conditions apply.
